

Product: Finester EGDS

INCI: Glycol Distearate

Description: Finester EGDS is a diester manufactured from vegetable origin raw materials. It is an effective opacifier and pearler due to its near insolubility in aqueous systems.

Specifications:

Appearance: White

Form: Flakes

Acid Value: 5.0 (max)

Saponification Value: 190 - 210

Iodine Value: 3.0 (max)

Melting Point: 60 ± 5°C

Moisture Content: 1% (max)

(Slight variations in the specifications stated due to raw materials and production conditions are possible though they have no influence on the application properties described)

Functions: It is a low HLB emulsifier and emulsion stabilizer for O/W and W/O Systems. Acts as a pearling agent, opacifier, thickener, stabilizing and bodying agent in personal care formulations. Finester EGDS forms a vivid pearl appearance in the formulation adding to the final appearance of the product.

Applications: Facial cleansers, body washes, hand washes, shampoos, creams, lotions etc.

Dosage: 0.5 - 2%

Storage: It is to be stored in its original packing away from direct heat and sunlight.

Shelf Life: 1 year from the date of manufacturing.

Packing: 25kg paper bag

•MSDS, Non-Allergen, Non-GMO, HAACP certificates available upon request.
