

**Product:** Finester LG 9000 (90% Monoester)

**INCI:** Glyceryl Laurate

**Description:** Finester LG 9000 is manufactured from vegetable origin raw materials. It exhibits very unique characteristics in personal care and pharmaceutical formulations.

**Specifications:**

**Appearance:** White

**Form:** Powder

**Monoester Content:** 90%

**Melting Point:**  $58 \pm 3^{\circ}\text{C}$

*(Slight variations in the specifications stated due to raw materials and production conditions are possible though they have no influence on the application properties described)*

**Functions:** It acts as a skin conditioning agent and refatting agent and provides strong self preservation. It promotes the penetration of actives through the skin. It also acts as a co-emulsifier with other surfactants. It enhances the aesthetics of formulations and creates superior stability in emulsions of all types.

**Applications:** Hand washes, bath oils, soaps, creams, lotions, antibacterial hand creams, ointments and toothpastes.

**Dosage:** 0.3 - 5%

**Storage:** It is to be stored in its original packing/package away from direct heat and sunlight.

**Shelf Life:** 1 year from the date of manufacturing.

**Packing:** 25kg fibre drum
