

Product: Finester SSL

INCI: Sodium Stearoyl Lactylate

Description: Finester SSL is an emulsifier produced from raw materials derived from vegetable origin.

Specifications:

Appearance: Creamish

Form: Powder

Acid Value: 75 - 95

Melting Point: 50 ± 5°C

(Slight variations in the specifications stated due to raw materials and production conditions are possible though they have no influence on the application properties described)

Functions: It acts as an emulsifier, co-emulsifier, co-surfactant and moisturising agent. It shows extended fragrance release and delivery of actives due to a sodium backbone. It shows improved skin elasticity and firmness without irritant effects. It provides a light silky, smooth and non-greasy feel on the skin.

Applications: Face scrubs, body scrubs, serums, creams, lotions and moisturisers.

Dosage: 1 - 7%

Storage: It is to be stored in its original packing/packaging away from direct heat and sunlight.

Shelf Life: 1 year from the date of manufacturing.

Packing: 25kg fibre drum

•MSDS, Non-Allergen, Non-GMO, HAACP certificates available upon request.
