

Speciality Additives for Process & Product Design Experts FINE Additives for Caps & Closures

Ease in opening & closing along with the suitable stability features for your caps and closures?

Get exactly what you are looking for in [Finawax](#) and [FinaSlip](#) range of additives. Your challenges of balancing performance & organoleptic properties can be well-resolved with [FinaSlip PEC](#) - a torque release additive specially formulated for HDPE caps and [FinaSlip EZY](#) for PP based caps.

If you prefer a high quality erucamide from a trusted brand, [Finawax E](#) has been well-accepted for the [best-in-class performance for erucamides](#), suitable for both HDPE & PP based closures.

Application studies have confirmed the effective torque release performance offered by these additives in the corresponding base polymers. You are assured to get suitable technical solutions matching your requirements! These additives are **100% bio-based**; thereby, can be well-suited for your 'sustainability' goals.

Are you looking for a hand-picked torque release additive for your system?

Product recommendations

Fine Additive	Torque release	Organoleptic properties
HDPE based caps and closures		
Finawax E	++++	+
Finawax B	++	++++
FinaSlip PEC	+++	++++
PP based caps and closures		
Finawax E	++++	+
FinaSlip EZY	++++	++++
