

FINAMUL - V (Medium Chain Triglyceride)

COMPOSITION

Caprylic/Capric triglyceride.

PRODUCT DESCRIPTION

Colour	Colourless to slight yellow.
Odour	Neutral.
Taste	Slight to coconut.
Delivery Form	low viscous liquid.

SPECIFICATION

Acid Value	Max 0.1
Saponification value	330 – 345
Hydroxyl Value	Max. 5
Iodine Value	Max. 0.5
Water Content	Max. 0.1%
Colour Lovibond 5¼"	
Yellow	Max. 2
Red	Max. 0.5

FURTHER CHEMICAL AND PHYSICAL DATA

Caprylic acid content	approx. 60%
Capric acid content	approx. 40%
Turbidity Point	Max. 0°C
Viscosity	approx. 30 mPa.s

GENERAL PROPERTIES

- Excellent oxidation stability.
- Good cold stability.
- Low viscosity.
- Good spreadability.
- Miscible with ethanol.

190 kgs Drum/50 kgs Carboy

- Specific metabolic properties.

PACKING

APPLICATION

- Special Food Preparation.
- Baby Food.
- Hospital Nutrition (oral, parenteral).
- Food for weight control.
- Sports Food.
- Glazing and release agent for dried fruit and confectionery.
- Solvent for flavours and fat soluble food ingredients.
- Release agent for baked goods.
- Lubricant for cutting machines.
- Antidusting agent for powder Formulations.
- Viscosity reducer for high viscous fatty substances. (e.g lecithins, vitamins)

LEGISLATION

In nearly all countries MCT-Oils are generally accepted as Foodstuff and labeled as vegetable oils. Finamul-V conforms to the specification given in the European Pharmacopoeia.

STORAGE

Store in tightly closed containers at temperatures between 0°C and 30°C. Avoid contact with water. The product will keep for at least 18 months if stored in original package.

The recommendations in this bulletin are made without guarantee since the conditions of use are beyond our control
