

Product: Finester 165

INCI: Glyceryl Stearate (and) PEG-100 Stearate

Description: Finester 165 is a blend of non-ionic surfactants. It is designed to be used as a self-emulsifier, emollient and thickener in acidic systems with a wide pH tolerance range of 3.5 - 10.

Specifications:

Appearance: White

Form: Flakes

Acid Value: 3.0 (max)

Saponification Value: 90 - 105

Iodine Value: 2.0 (max)

Melting Point: 55 ± 5°C

Moisture Content: 0.5 (max)

(Slight variations in the specifications stated due to raw materials and production conditions are possible though they have no influence on the application properties described)

Functions: It can be the sole emulsifier for mildly acidic O/W creams, lotions and many other O/W products. It is a versatile O/W emulsifier mainly suited for non-polar oil phases. It consistently gives superior emulsions and shows good product stability.

Applications: Hair masks, facial cleansers, serums, eye creams, creams, moisturisers, lotions, body butters, night creams and other O/W end products.

Dosage: 1 - 7%

Storage: It is to be stored in its original packing/packaging away from direct heat and sunlight.

Shelf Life: 1 year from the date of manufacturing.

Packing: 25kg paper bag

- MSDS, Non-Allergen, Non-GMO, HAACP certificates available upon request.
