

FINALUX 108

DESCRIPTION : 100% active wetting & dispersing additive

SPECIFICATIONS : Appearance : Liquid (at 30° c)

(Slight variations in the specifications stated due to raw materials and production conditions are possible though they have no influence on the application properties described.)

APPLICATIONS :

- Recommended for non-floating high solids containing and Aromatic-free architectural coating
- It may suitably be used in Industrial and Leather coatings.
- Excellent wetting and dispersing agent for Flexo, Gravure and screen-printing Ink.

PROPERTIES :

- Can offer improved colour strength through effective wetting and distribution of pigment particles in the concentrates. Thereby, can offer superior coloristic and optical properties.
- It can aid viscosity regulation/reduction; hence, higher pigment loading can be achieved without compromising on the dispersion quality.

USE LEVEL :

Additive dosage as supplied based on pigment Types:

- Inorganic pigments : 3-5 %
- Titanium dioxides : 0.8-1.5 %
- Organic pigments : 5-8 %
- Carbon blacks : 8-10 %

STORAGE : It is recommended to store the product at room temperature. At lower temperature, it may crystallize due to its inherent characteristics. The crystallization is reversible when heated and has no influence to application properties.
