

FINASPERSE 28K

DESCRIPTION : Specialty wetting and dispersing additive for liquid inks and coatings

SPECIFICATIONS : Appearance : Viscous liquid (at 30 °C)

(Slight variations in the specifications stated due to raw materials and production conditions are possible though they have no influence on the application properties described.)

APPLICATIONS : Excellent wetting and dispersing agent for pigments in:

- Flexo and Gravure ink
- Protective coating
- Industrial OEM coating
- Pigment dispersion

PROPERTIES :

- Improved colour strength
- Enhanced Jetness
- Low Viscosity
- Improved Stability
- Effective particle size reduction post milling process
- Offers higher opacity
- Superior colouristic properties
- Possibility of high pigment loading
- Enhanced milling efficiency

USE LEVEL : 10 to 20% on weight of pigment

STORAGE : It is recommended to store the product at room temperature. at a lower temperature, it may crystallize due to its inherent characteristics. The crystallization is reversible when heated and has no influence on application properties.
