FINE ORGANICS SELECTS UNION COUNTY, SOUTH CAROLINA, FOR ITS FIRST US MANUFACTURING FACILITY

We are pleased to announce that Fine Organics Americas LLC, our wholly owned subsidiary, has acquired the land admeasuring approximately 159.92 acres in Union County, South Carolina.

This step marks a significant milestone in our global expansion strategy. The Company has initiated the planning and development for the proposed facility. The proposed site will house a full-fledged manufacturing facility, enabling us to enhance and solidify our presence in the North, Central and South America markets. This strategic move will help us better serve our existing customers by providing increased supply security and enhanced service levels. The site will also help us capture new growth opportunities and reinforce our long-term commitment to the region.

We extend our gratitude to state and local partners for their unwavering support. Union County's thriving environment for innovation and manufacturing excellence makes it an ideal location for our growth.
